This survey of prices charged for milk, low fat milk and skim milk by supermarkets in 17 Upstate New York markets and by supermarkets in 9 Metropolitan New York areas is conducted quarterly, effective 2009. Prices are collected primarily the first full week of the survey month by Department personnel who visit about 220 supermarkets in Upstate New York and around 90 supermarkets in Metro New York. Prices are published for paper quart, paper half gallon and plastic gallon containers. All prices are simple averages except the regional prices in Upstate New York which are weighted by the population of each market in the region. The average price for each survey area is based on the lowest priced brand sold by each store and includes any promotional price and multiple container pricing.

In Upstate New York, a market area is the central city plus adjacent suburbs/townships or neighboring city, if applicable, which are generally within a ten mile radius. The supermarkets surveyed are mainly chains or voluntary/cooperative groups and include warehouse type stores except those that charge a membership fee. In a few markets, major independents are also included. The sample rate of chains or voluntary/cooperative groups is generally 100% in small markets, 75-100% in medium markets and 50% in large markets. The surveyed stores are selected in general proportion to their overall presence in the market area.

In Metro New York, supermarkets are surveyed based on a judgmental sample of stores in each area. Supermarkets include chains, voluntary/cooperative groups and independents.

NR: No range
NA: Not available
* : Insufficient number of observations to report

Historical Notes:

Effective 2011, Batavia, Auburn and Rome were eliminated from the survey. This reduced number of Upstate New York markets to 17.

Effective 2010, Amsterdam and Gloversville/Johnstown were eliminated from the survey. This reduced number of Upstate New York markets to 20.

Effective 2009, survey frequency changed from a monthly to a quarterly basis.

Effective October 1988, Batavia was moved from Unregulated Area to Western New York to reflect its change in status resulting from the expansion of the Western New York Milk Marketing Area in June 1988.

Effective January 1988, revisions in the survey included discontinuing the survey of dairy stores on a monthly basis and in Upstate New York, standardizing the size of market areas, enlarging sample sizes, sampling only supermarkets, drawing of samples in proportion to the market and converting to average methodology, rather than prevailing, to determine market prices. This resulted in the number of markets being reduced from 24 to 22. Gloversville and Johnstown were merged into one market and Olean was dropped from the survey. In addition, the reporting of low fat milk prices was expanded in view of its increasing importance, particularly in Upstate New York. In Western New York, low fat milk (virtually all 2%) outsells milk 2 to 1, accounting for about 3/5 of fluid milk sales. In the balance of Upstate, low fat milk sales represent approximately 1/3 of fluid sales while in Metro New York, low fat milk accounts for about 1/6 of sales.

Effective October 1982, determination of market prices of Metro New York was changed from prevailing to average methodology.
