RFP0389 - REQUEST FOR PROPOSALS

Climate Resilient Farming Program

Round 9

Addendum 2

Issued 11/06/2025

An error was identified on the CRF Round 9 Application Form in Part D – Track 4: Agricultural Forest Management Project Details, Question #2. The question asks the applicant to verify if the project location has been harvested in the last 5 years according to the Harvesting Restriction outlined in the RFP Appendix D Track 4 Guidance Document. The answers in the drop-down menu do not provide an answer that allows the applicant to properly verify the question. Therefore, applicants applying for Track 4 should not answer Question #2 regarding the harvesting guidelines.

All applicants applying to CRF Round 9 Track 4 should include a statement in the project description verifying that the land has not been harvested in the last 5 years unless related to a forest stand health issue.

Any applicant who has already submitted an application for Track 4 does not need to resubmit. If needed, the Department will follow-up with the applicant to confirm eligibility during the Eligibility Review period.
